

Kitchen Checklist

GETTING STARTED

When planning your next big project, it's essential to make sure you cover all the bases. We know that building that picture-perfect kitchen is no easy task, so organization is critical in this process. Having all of your information in one place is a good start, and it will accelerate the flow of your project schedule. Follow the steps in this guide to be on your way to ensure a successful kitchen remodel.

PLANNING

While planning your project, these tasks will be mandatory during the process. Feel free to attach more detailed notes to this sheet for a more comprehensive plan.

Type: _____

Supplier: _____

EVALUATE

Now that you have your plan together review the final product on paper. Does everything match? Is this timeline realistic? How flexible is your budget? Plan for kitchen product substitutions to account for out-of-stock issues. Finally, continually re-evaluate your project plan during this process to make necessary adjustments.
